SEMINARS IN THROMBOSIS AND HEMOSTASIS—VOLUME X

AUTHOR INDEX

Amiral J, 228
Aoki N, 24, 42
Bachmann F, 6
Baker W, 329
Bick RL, 104, 167, 208, 252, 290, 333
Cash JD, 51
Castellino FJ, 18
Comp PC, 149
Dahlback B, 139
Duckert F, 87
Emanuele RM, 219, 243
Esmon CT, 122
Esmon NL, 122
Fareed J, 219, 228, 243, 252, 264, 280, 285, 294, 306, 329
Griffin AJ, 285
Griffin JH, 162
Harpel PC, 24
Hoppensteadt D, 219, 243, 294, 306
Katz P, 202
Kitchens CS, 173
Kruithof IEKO, 6
Kwaan HC, 71
Mariani G, 252
Markus G, 61
Menendez CE, 280, 285
Messmore HL Jr., 252, 264, 306, 329
Moncada R, 306
Moroz LA, 80
Mullertz S, 1
Murano G, 104, 167, 208, 333
Ow EP, 285
Pierson KK, 196
Prowse CV, 51
Sherertz EF, 190
Stenflo J, 109
Suarez CR, 280, 285
Suzuki K, 154
Walenga JM, 219, 228, 243, 252, 264, 280, 285, 294, 306, 329
Walker FJ, 131
Walz DA, 270
Wehrmacher WH, 215, 306

CUMULATIVE TABLE OF CONTENTS

Number 1
FIBRINOLYSIS
Nobuo Aoki, Guest Editor

Fibrinolysis: An Overview, Sten Müllertz, 1
Tissue Plasminogen Activator: Chemical and Physiological Aspects, Fedor Bachmann and Ir Egbert K.O. Kruithof, 6
Biochemistry of Human Plasminogen, Francis J. Castellino, 18
Inhibitors of the Fibrinolytic Enzyme System, Nobuo Aoki and Peter C. Harpel, 24
Genetic Abnormalities of the Fibrinolytic System, Nubuo Aoki, 42
Physiologic and Pharmacologic Enhancement of Fibrinolysis, Christopher V. Prowse and John D. Cash, 51
The Role of Hemostasis and Fibrinolysis in the Metastatic Spread of Cancer, Gabor Markus, 61
The Role of Fibrinolysis in Disease Processes, Hau C. Kwaan, 71
Nonplasmin-Mediated Fibrinolysis, Leonard A. Moroz, 80
Thrombolytic Therapy, François Duckert, 87
Abstracts in Current Literature, Genesio Murano and Rodger L. Bick, 104

Number 2
PROTEIN C
Charles T. Esmon, Guest Editor

Structure and Function of Protein C, Johan Stenflo, 109
Protein C. Activation, Charles T. Esmon and Naomi L. Esmon, 122
Protein S and the Regulation of Activated Protein C, Frederick J. Walker, 131
Interaction Between Vitamin K-Dependent Protein S and the Complement Protein, C4b-Binding Protein: A Link Between Coagulation and the Complement System, Björn Dahlbäck, 139
Animal Studies of Protein C Physiology, Philip C. Comp, 149
Activated Protein C Inhibitor, Koji Suzuki, 154
Clinical Studies of Protein C, John H. Griffin, 162
Abstracts of Current Literature, Genesio Murano and Rodger L. Bick, 167

Number 3
PURPURA
Craig S. Kitchens, Guest Editor

The Purpuric Disorders, Craig S. Kitchens, 173
Pigmented Purpuric Eruptions, Elizabeth F. Sherertz, 190
Leukocytoclastic Vasculitis Viewed as a Phase of Immune-Mediated Vasculopathy, K Kendall Pierson, 196
Vasculitic Purpura: Differential Diagnosis and Therapy, Paul Katz, 202
Abstracts of Current Literature, Genesio Murano and Rodger L. Bick, 208

Number 4
MOLECULAR MARKERS OF HEMOSTATIC DISORDERS
Jawed Fareed, Guest Editor

Molecular Markers of Hemostasis: Introduction and Overview, William H. Wehrmacher, 215
Performance Characteristics of a Simple Radioimmunoassay for Fibrinopeptide A, Jeanine M. Walenga, Debra Hoppensteadt, R. Martin Emanuele, and Jawed Fareed, 219
Development and Performance Characteristics of a Competitive Enzyme Immunoassay for Fibrinopeptide A, Jean Amiral, Jeanine M. Walenga, and Jawed Fareed, 228
Development of Fibrinopeptide A Generation Tests in the Evaluation and the Monitoring of the Action of Heparin and Its Low Molecular Weight Fractions, Jawed Fareed, R. Martin Emanuele, Debra Hoppensteadt, and Jeanine M. Walenga, 243
Diagnostic Efficacy of a Simple Radioimmunoassay Test for Fibrinogen/Fibrin Fragments Containing the Bβ 15-42 Sequence, Jeanine M. Walenga, Jawed Fareed, Gugliomo Mariani, Harry L. Messmore Jr., and Rodger L. Bick, 252
Molecular Markers of Platelet Activation, Harry L. Messmore Jr., Jeanine M. Walenga, and Jawed Fareed, 264
Platelet-Released Proteins as Molecular Markers for the Activation Process, Daniel A. Walz, 270
Neonatal and Maternal Hemostasis: Value of Molecular Markers in the Assessment of Hemostatic Status, Carlos R. Suarez, Cesar E. Menendez, Jeanine M. Walenga, and Jawed Fareed, 280

Cyanotic Congenital Heart Disease in Children: Hemostatic Disorders and Relevance of Molecular Markers of Hemostasis, Carlos R. Suarez, Cesar E. Menendez, Andrew J. Griffin, E. Phillip Ow, Jeanine M. Walenga, and Jawed Fareed, 285

Clinical Implications of Molecular Markers in Hemostasis and Thrombosis, Rodger L. Bick, 290

Laboratory Application of Radioimmunoassay in the Quantitation of Molecular Markers of Hemostatic Activation, Jeanine M. Walenga, Jawed Fareed, and Debra Hoppensteadt, 294

Molecular Markers of Contrast Media-Induced Adverse Reactions, Jawed Fareed, Rogelio Moncada, Harry L. Messmore Jr., Jeanine M. Walenga, Debra Hoppensteadt, and William H. Wehrmacher, 306

Molecular Markers of Hemostatic Activation: Future Perspectives, Jawed Fareed, William H. Baker, Jeanine M. Walenga, and Harry L. Messmore Jr., 329

Abstracts of Current Literature, Genesio Murano and Rodger L. Bick, 333
